

triple layer surgical mask

A versatile, sterile mask, ideal for procedures where heavy to moderate amounts of fluid, spray and / or aerosols are produced in clinical and surgical environments.

Features

- Aluminium nose-piece allows forming of tight seal preventing ventilation leakage
- Elastic earloops allowing quick and easy application / removal
- Durable polypropylene provides confidence against leaks and mechanical tears
- Designed to be disposable avoiding contamination due to particulate build-up
- Soft material prevents excessive marking of skin
- Flexibility allows easy integration with any additional head and facial protection
- Glass-fibre free
- Bacterial Filtration Efficiency (BFE) of $\geq 98\%$
- Splash resistant
- TGA & CE Certified
- Universal sizing

Performance

	Europe EN Requirement (Type IIR)	Australia ASTM Requirement (Level 3)
Bacterial Filtration Efficiency % (BFE)	≥ 98	≥ 98
Differential Pressure (H ₂ O/cm ²)	< 5.0	< 5.0
Sub-micron particulate filtration efficiency % (PFE)	≥ 98	≥ 98
Fluid Resistance (mmHg)	> 120	≥ 160
